MEMORANDUM FOR: Chairman, Interagency Group/Countermeasures (Policy)  
FROM: Chairman, Senior Interagency Group (Intelligence)  
SUBJECT: Actions to Compensate for GSA-approved Combination  
Lock Vulnerabilities

1. I am pleased by the progress made by the IG/CM(P) and the initiatives set forth in your note to me last week.

2. After reviewing the actions you plan to take, I have only one concern. It is my understanding that the draft press release attached to the memorandum has been revised. It is important, in an area which arouses such strong feelings in Congress and in the public, that we carefully craft any public statement we make and that we all agree on the final draft. I look forward to seeing the group's final product.

3. I agree with the group that it is important to consider the statement as part of a contingency plan and carefully consider the timing of its release.
